Tel: 0131 334 0363

Reception at Spire Shawfair Park Hospital

Tel: 0131 654 5600

Please note neither of our hospitals have accident and emergency facilities.

Since 1984 Spire Edinburgh Hospitals have been delivering outstanding healthcare in the east of Scotland. We work with leading consultant physicians and surgeons to offer an extensive suite of services for diagnosing and treating a wide range of conditions.

About Spire Edinburgh Hospitals

At Spire Healthcare we are committed to delivering excellent individual care and customer service to all our patients, from the time they first get in touch with us until after their treatment is complete. Our dedicated and highly trained people aim to consistently achieve excellent results, in a safe and secure environment. For us it's more than just treating patients, it's about looking after people, and the safety of our patients and colleagues is our number one priority.

It's our people that really set us apart

We know that you insist on the highest standards of care for the patients who put their trust in you, and you can be sure that our team will continue that care. For us it's more than just treating patients, it's about giving patients, their family and friends the most positive experience we possibly can in our hospital.

Our consultants

Every consultant working at Spire Edinburgh Hospitals is on the specialist register of the General Medical Council and has met our practising privileges criteria. We know continuity of care is important. Once a patient has chosen their consultant, we will make sure that they are looked after by the same consultant, from the first appointment and throughout all treatment and follow-up care.

Our nursing staff

All our nurses are highly qualified and dedicated to caring for patients in a professional manner. For ultimate reassurance, we have a fully trained clinical team equipped to deal with medical emergencies 24 hours a day.

Facilities over our two hospitals include:

Spire Murrayfield Hospital

- Oncology
- Onsite imaging (including MRI and CT)
- Onsite laboratory
- Onsite pharmacy

Spire Shawfair Park Hospital

- Cardiac catheterisation lab
- Endometriosis Clinic
- Onsite imaging (including mobile MRI)
- Onsite pharmacy
- Private GP service
- Spire Eye Centre

How to refer your patients

At Spire Edinburgh Hospitals we are committed to delivering excellent individual care and customer service to all our patients, from the time they first get in touch with us until after their treatment is complete. Our dedicated and highly trained staff aim to consistently deliver excellent patient care.

Referral letters

Referrals can be named or unnamed. For unnamed referrals we will determine the most appropriate consultant with the next available appointment. To refer to a specific consultant, please use this directory as a guide or visit www.spireedinburgh.com/consultants/profiles to view full profiles.

Ideally we would prefer to receive your referral letter in advance of offering your patient an appointment. If you have advised your patient to contact us directly for an appointment, your referral letter should be sent to us within three working days so we can offer your patient the soonest available appointment.

Referral letters can be:

Sent via: **SCI Gateway**

Submitted online at: spireconnect.spirehealthcare.com

SCI Gateway

All our specialties, and sub specialities where relevant, are visible under Murrayfield and Shawfair Park drop-downs.

If you are a GP from a health board outwith Lothian, you can refer your patients to us the following way:

- Click on the new message option and change the health board from your local health board to Lothian
- From the drop down menu, select Murrayfield or Shawfair Park Hospital
- Choose the specialty that you are looking for

Once we receive the (SCI Gateway) referral we will contact your patient by telephone to arrange a suitable appointment.

Self-funding patients

GP referrals are not always necessary for patients who choose to self-fund. However, the consultant may request additional information from your practice following initial consultation. Please be advised that some of our consultants do require a referral letter.

We can provide a tailored fixed price inclusive care package with no hidden extras on a range of diagnostic tests, treatments and surgical procedures. For more information, please call our self-pay team on **0131 316 2507**.

Patients with private medical insurance

A referral letter is generally required before any insured patient can be seen by a consultant. Patients can call our outpatient appointment team on **0131 316 2530** to arrange a convenient appointment. We will require the patient's policy details at the time of booking. It is important that your patient contacts their insurer to obtain authorisation.

GP education

We provide a free consultant-led GP education programme. All our events count towards your annual Continued Professional Development (CPD).

Our programme is developed in response to GP requests as it is our aim to make all talks informative and useful to you in your daily practice.

In 2024 our events will take place in-person and online, with CPD points available for attending both. Our online events can also be viewed on demand at a time that suits you.

In-practice education

We are able to facilitate training to meet the educational needs of GPs and practice staff by providing in-practice training sessions on a date and time to suit your practice.

Our complimentary service includes:

- Breakfast/lunch/light supper
- CPD points and certificates
- Wide range of clinical topics

For more information about GP educational events and in-practice education

Email gpscotland@spirehealthcare.com

Other services

Children and Young People's Service

Spire Edinburgh Hospitals' children and young people's service is available across a number of specialities. (See page 16 for our paediatric consultants.)

At Murrayfield we see patients aged 0 – 16 for outpatient consultations (non-interventional only).
At Shawfair we see patients aged 0 – 16 years old for outpatient consultations.
Paediatric procedures will be carried out as a daycase at Shawfair for patients aged 3 – 16.

We offer treatments across a wide range of childhood illnesses and diseases including:

- Dental
- Ear, nose and throat (ENT) such as grommets, adenoids and tongue ties and more, but we currently do not have the facilities to treat tonsillectomy patients
- Eye treatment and surgery including squint repairs and more
- Gastroenterology
- General surgery including hernia repairs
- Orthopaedics including ACL reconstructions and meniscal repairs and more
- Plastics consultations and procedures including birthmarks, excision of lesions or ear pinnaplasties
- Radiology
- Urology problems and treatments including orchidopexies and circumcisions

We have a range of specialists who can see children and young people at either Murrayfield or Shawfair Park as an outpatient. All day case procedures are carried out at Shawfair.

For further information regarding our paediatric consultants please contact our outpatient appointments team on **0131 316 2530**.

Diagnostic imaging

Imaging services are available at both Spire Murrayfield and Shawfair Park Hospitals and cover a wide range of both diagnostic and therapeutic interventions.

The department carries out all general work including cardiac, CT guided biopsy and virtual colonography. All images and radiology reports are stored to the hospital's Picture Archiving Communication System (PACS). The voice activated reporting system allows a fast turnaround of results.

All imaging procedures are performed by registered radiographers or consultant radiologists.

We aim to provide a rapid access service for many examinations across our sites and can often offer same day appointments.

All referrals for imaging in either Murrayfield or Shawfair Park should be requested via SCI Gateway.

Our imaging facilities at Murrayfield include:

- CT
- Digital mammography
- Fluoroscopy including HSG, arthrography, urology and barium studies
- MRI including prostate, cardiac, breast and angiography
- Plain film imaging
- Ultrasound including US guided biopsy, FNA and therapeutic injections

Our imaging facilities at Shawfair include:

- Cardiac cath lab
- Fluoroscopy including HSG, arthrography, urology and barium studies
- Mobile MRI
- Plain film imaging
- Ultrasound including US guided biopsy, FNA and therapeutic injections

Appointments: **0131 316 2593**

Pathology

The on-site laboratory at Spire Murrayfield Hospital is fully accredited to ISO 15189 standards and supports a comprehensive range of pathology services. Secure electronic result reporting enables quick access to laboratory results as soon as they become available.

We are happy to accept private referrals for a range of blood tests.

Opening times

Monday to Friday **8am – 6pm**

Saturday **9am – 1pm**

Sunday **9am – 11pm**

24/7 out of hours support for both hospitals and clinical teams

Pathology services include:

- Biochemistry
- Blood transfusion
- Endocrinology
- Haematology
- Histopathology
- Immunology
- Microbiology
- Mycology
- Tumour assays

Phone: **0131 316 2521**

Email: **edpathology@spirehealthcare.com**

Directory listings

A

Allergy

Dr E J Cameron

Acute allergy (hay fever, food allergy) angio-oedema, immune function. Breathlessness, chronic cough, difficult asthma, pulmonary fibrosis, COPD, emphysema, bronchiectasis, lung cancer, sleep apnoea screening. Unexplained weight loss. Occupational respiratory assessments.

Dr J Darroch

Acute allergy (hay fever/allergic rhinitis, food allergy, insect venom allergy), anaphylaxis, urticaria, angioedema, primary immunodeficiency.

Audiology

Mr J Allen

Audiologist and hearing aid dispenser. Paediatric and adult diagnostic audiology, a full rehabilitative service including assessment, fitting and purchase of digital hearing aids, tinnitus and hyperacusis management, supply and fitting of all customised ear plugs.

Mrs L Danes

Test hearing in children over the age of 3 years old and adults of all ages.

B

Breast surgery

Mr C Cartlidge

Breast cancer and oncoplastic reconstruction. Benign breast disease including pain, nipple discharge and lumps. Family history patients, second opinions and complex revisional surgery including fat transfer following previous cancer treatment.

Mr K Elder

Management of all benign breast diseases. Management of Breast cancer including oncoplastic and reconstructive surgery. Management of patients with family history of breast disease. Management of breast pain.

Ms L Khan

Female consultant managing all benign and malignant breast disease including pain, nipple problems and reconstruction. Revision surgery including implants and special interest in risk-reducing surgery and breast health checks.

Mr D Kulkarni

Management of breast disease and breast oncoplastic reconstruction.

Miss D Twelves

Breast oncology and oncoplastic surgery.

Mr O Young

Breast health checks. Management of benign breast diseases including breast pain. Breast cancer management including oncoplastic and reconstructive surgery. Surgery for screen-detected disease. Management of those with a family history of breast cancer and risk-reducing surgery.

C

Cardiology

Dr M Behan

General cardiology, interventional cardiology and stenting, pacemakers, valve disease, palpitations, hypertension, syncope, cardiac risk assessment and cholesterol management.

Prof M Dweck

All general cardiology referrals including those related to coronary artery disease, echocardiography, hypertension, stroke prevention, vascular medicine, valvular heart disease, MI prevention, aortic stenosis, pacemakers, defibrillators, cardiac resynchronisation therapy, cardiac CT and MRI.

Dr D Elder

Arrhythmia, pacemaker, ablation, atrial fibrillation, defibrillator, ICD, syncope, SVT, tachycardia, pacemaker, collapse, cardiac resynchronisation, rhythm problems.

Dr A D Flapan

Over 25 years experience in cardiology and is expert in the assessment of chest pain, breathlessness, palpitation and syncope. Introduced angioplasty for the treatment of heart attacks to Scotland as well as percutaneous treatment of heart valve disease. Expert in the medical treatment of syncope and arrhythmia. Current Physician to the King in Scotland.

Dr P Henriksen

General cardiology, coronary disease and interventional cardiology, CT coronary angiography, cardiovascular risk assessment and hypertension.

Dr C Lang

Palpitations, blackouts, atrial fibrillation, arrhythmias, radio frequency ablation, pacemakers, implantable defibrillators (ICD), cardiac resynchronisation therapy devices.

Prof J C Spratt

Treatment of coronary artery disease specialising in coronary angioplasty with a particular emphasis in helping patients with limiting symptoms of angina or breathlessness and complex coronary disease. Additional expertise in cardiovascular risk assessment, including hypertension, coronary CT assessment and the treatment of heart muscle disease (cardiomyopathies).

Dr C G Stirrat

Welcomes referrals for patients with all arrhythmias, palpitations, blackouts/syncope, atrial fibrillation, SVT, catheter ablation, pacemakers, defibrillators (ICDs), cardiac resynchronisation therapy devices (CRT), valve disorders and heart failure (cardiomyopathy).

Dr S Venkatasubramania

General cardiology, heart failure, cardiac devices.

Dr G Wright

Atrial fibrillation (AF), SVT, cryo-balloon AF ablation, SVT ablation, flutter ablation.

Dr A Yerramasu

Welcomes referrals for patients presenting with palpitations, breathlessness, chest pain, blackouts/fainting, atrial fibrillation, valve disease, inherited cardiac conditions and hypertension; Patients needing ECGs, Echocardiograms, ECG monitors, CT coronary angiograms, trans-oesophageal echocardiograms, pacemaker and ICD implantations.

Cardiothoracic surgery

Mr V Zamvar

Coronary artery surgery, aortic valve surgery, surgery for lung cancer, Video Assisted Thoracoscopic Surgery (VATS), TAVI, minimally invasive cardiac and thoracic surgery, adult cardiac and thoracic surgery.

Colorectal

Mr D N Anderson

Colorectal surgery, endoscopy, coloproctology.

Mr A J Clark

Minimally invasive colorectal surgery for cancer, inflammatory bowel and benign disease.

Miss M Collie

Rectal bleeding, incontinence, prolapse, colonoscopy, benign and malignant colorectal disease.

Mr B J Mander

Colonoscopy, colorectal cancer, constipation, incontinence, haemorrhoids, hernia repair, minimally invasive colorectal surgery, HALO, haemorrhoidectomy.

Mr M Potter

All aspects of colorectal surgery including colonoscopy, colorectal cancer, rectal bleeding, fissure, fistula, haemorrhoids (incl HALO) incontinence, prolapse, minimally invasive (eg keyhole) surgery and hernia repair. Complex pelvic surgery (eg endometriosis).

Mr R G Wilson

Laparoscopic surgery for colorectal cancer, inflammatory bowel disease including ileo-anal pouch procedure and diverticular disease. Abdominal hernia surgery. Management of fistula, fissure, haemorrhoids and pilonidal disease. Colonoscopy – diagnostic and therapeutic.

Continence

Mr A Alhasso

Reconstructive and functional urology: urethral stricture disease, male urinary incontinence (artificial urinary sphincter and male sling surgery), female urinary incontinence (urethral slings, tapes, bulking agent injections and colposuspension). Bladder dysfunction (idiopathic and neuropathic overactive bladder dysfunction) – botulinum toxin injection and neurimodulation (SNS and PTNS). Urinary diversion surgery, functional bladder studies – Video-Urodynamics (Videocystometry). General urology: Peno-scrotal surgery (circumcision, hydrocele repair, epididymal cyst excision, prosthetic testicular implantation) and male family planning – vasectomy. Prostatic disease (prostate surgery and GreenLight laser prostatectomy).

Miss P V Granitsiotis

Female urology, stress urinary incontinence, overactive bladder syndrome/incontinence, recurrent urinary tract infections, female urinary retention, bladder pain/Interstitial cystitis, bladder problems in neuropathic patient (spinal problems, MS etc), urodynamics. General urology including haematuria and benign prostate problems.

Mr K Janjua

Female urology – stress urinary incontinence, overactive bladder including bladder botulinum toxin injections. Recurrent urinary tract infections. Haematuria. Benign prostatic disease, including green-light laser prostatectomy. Daycase surgery including circumcision, hydrocele repair, epididymal cyst excision.

Dr S C Nicholson

Urogynaecology. Surgery for prolapse and urinary incontinence. Urodynamics. Menstrual problems and pelvic pain. Laparoscopic surgery including laparoscopic hysterectomy and laparoscopic removal of ovarian cysts. Colposcopy.

D

Dermatology

Dr S Fraser

General dermatology, skin cancer, minor skin surgery, assessment of moles and other skin lesions. Does not see children.

Dr S A Holme

General dermatology, acne, dermatitis, psoriasis, hyperhidrosis, moles, skin cancer and skin cancer surgery.

Dr M Mowbray

General dermatology, hair disease (alopecia and hirsutism), nail disease, moles, skin cancer and skin cancer surgery.

Dr M J Tidman

Medical dermatology, dermatological oncology, paediatric and adolescent dermatology, general dermatology.

Dietitian

Ms V Giudice

Bariatric surgery.

Miss C McAnenny

Clinical nutrition, including management of obesity diabetes, IBS, coeliac disease and any gastrointestinal disorders resulting in nutritional issues. All aspects of liver nutrition including metabolic syndrome and the management of patients with fatty liver or liver cirrhosis. Also the therapeutic management of patients that are malnourished and have a MUST score of two or above.

Dr F Pender

Clinical nutrition, including management of overweight and obesity, diabetes and the metabolic syndrome, underweight and pre-surgical patients, all aspects of renal nutrition. Eating disorders, cancer, allergy and specialist therapeutic interventions, together with dietary analysis form a routine caseload.

E

Endocrinology

Dr K Adamson

Endocrinology and diabetes mellitus, parathyroid disease, pituitary disease and thyroid disease, hormone imbalance (male and female), osteoporosis diagnosis and management, menopause management, medical weight loss. Effective use of lifestyle medicine for long term benefit in chronic conditions and weight management (BSLM certified expert).

Dr M Lyall

Diabetes, thyroid disorders, thyroid nodular, thyroid cancer, Addisons disease, calcium and pituitary disorder.

ENT

Mr R Adamson

Edinburgh Teaching Hospital Consultant with special interest in voice, airway, swallowing, thyroid disorders including cancers and neck/salivary lumps. The only subspecialist laryngologist working in the private sector in Edinburgh.

Mr M W J Armstrong

Adult ENT, deafness, snoring/obstructive sleep apnoea/sleep studies, voice/throat disorders, nasal difficulties, hearing/balance issues and allergy.

Mr P Asimakopulos

Head and neck cancer, neck lumps, thyroid and parathyroid disease, disorders of swallowing and speech, general ENT disorders and ear wax removal.

Mr D Baring

Tertiary teaching hospital practice working in the Edinburgh ENT group specialising in ear surgery, balance and paediatrics as well as a general ENT practice in rhinology and head and neck work, ear wax removal.

Mr A M D Bennett

Adult and paediatric otolaryngology including nasal blockage, allergic rhinitis, sinusitis, ear infections, glue ear, cholesteatoma, hearing loss, tinnitus and vertigo.

Mr A Evans

Assessment of throat, neck, voice and swallowing disorders. Expert assessment of neck lumps.

Mr R Gohil

All aspects of general adult ENT, tertiary sub-specialist practice in nose and sinus disease, cosmetic and functional septorhinoplasty, nasal reconstruction, endoscopic sinus surgery.

Mr I Hathorn

Nasal and sinus disease, septoplasty, balloon sinuplasty, endoscopic sinus surgery and extended applications (lacrimonasal, orbital decompression, anterior skull base surgery), sinonasal malignancy, general ENT.

Mr A J Hay

General ENT, swallowing and voice, salivary gland, thyroid, head and neck cancers, neck lumps, ears, nose, sinus.

Mr I J Nixon

General ENT, head and neck, throat, thyroid surgery and ear wax removal.

Dr M L Montague

All aspects of ear, nose and throat, airway and head and neck surgery in children and young people from 3 – 18 years. Specialist Paediatric Audiologist input available at clinic for children aged three and over with hearing problems. Microsuction service available for wax removal.

Mr A Williams

Nasal problems, sinus disease, balloon sinuplasty, rhinoplasty, extended applications of endoscopic sinus surgery (lacrimonasal surgery, orbital decompression, anterior skull base), nasal and sinus malignancy, ear wax removal.

G

Gastroenterology

Dr I Arnott

Interests include altered bowel habit, rectal bleeding, inflammatory bowel disease, irritable bowel syndrome, iron deficiency anaemia, upper endoscopy (including trans-nasal endoscopy), colonoscopy, capsule endoscopy, gastro-oesophageal reflux, food intolerance, bacterial overgrowth, small bowel disease.

Dr C H Fraser

Refractory acid reflux, LPR, swallowing difficulty, nausea, dyspepsia, constipation and evacuatory problems, diarrhoea, IBS, bloating, food intolerance and bacterial overgrowth, breath testing, anaemia, rectal bleeding, bowel cancer screening, removal of bowel polyps, small bowel diseases, endoscopy (gastroscopy, TNE, colonoscopy, capsule endoscopy, Stretta procedure, DBE).

Prof C Lees

Inflammatory bowel disease (Crohn's disease and ulcerative colitis), diarrhoea and weight loss, iron deficiency anaemia, diagnostic endoscopy and colonoscopy.

Dr C Noble

Endoscopy and colonoscopy, irritable bowel syndrome and functional GI disease, inflammatory bowel disease.

Dr I Penman

Endoscopy, Barrett's oesophagus and upper GI cancer, pancreaticobiliary disorders and EUS, colonoscopy, functional bowel disorders.

Dr A Shand

Coeliac disease, nutrition, malnutrition, colonoscopy, endoscopy, inflammatory bowel disease, short bowel syndrome.

Dr K C Trimble

Upper GI endoscopy and colonoscopy. Oesophageal physiology tests. Hydrogen breath tests for SIBO and lactose intolerance. Oesophageal disorders, dyspepsia, functional GI disorders, inflammatory bowel disease, investigation of iron deficiency anaemia.

Dr A Williams

Irritable bowel syndrome, inflammatory bowel disease, alcohol liver disease, endoscopy.

General medicine

Dr K Adamson

Endocrinology and diabetes mellitus, parathyroid disease, pituitary disease and thyroid disease, hormone imbalance (male and female), osteoporosis diagnosis and management, menopause management, medical weight loss. Effective use of lifestyle medicine for long term benefit in chronic conditions and weight management (BSLM Certified expert).

Dr E J Cameron

Acute allergy (hay fever, food allergy) angio-oedema, immune function. Breathlessness, chronic cough, difficult asthma, pulmonary fibrosis, COPD, emphysema, bronchiectasis, lung cancer, sleep apnoea screening. Unexplained weight loss. Occupational respiratory assessments.

Dr M Corretge

Cognitive problems and dementia, Parkinson's disease, osteoporosis, functional problems including chronic fatigue and pain, general decline in elderly patients (falls, continence issues, confusion), polypharmacy, cardiovascular risk management.

Prof A T Hill

Airways disease and respiratory infection in particular COPD, bronchiectasis, pneumonia and tuberculosis.

Prof C Leen

Infectious diseases, vaccines, blood borne viruses infection, Lyme disease, chronic fatigue.

Dr R Parakramawansa

Treatment and prevention of strokes and ministrokes (TIAs), investigation and management of 'funny turns' including syncope, treatment of hypertension and prevention of cardiovascular diseases.

You can refer via SCI Gateway

GP (private)

Dr L Donaldson

Interests in women's health and all aspects of general practice.

Dr K Greene

Interest in all aspects of general practice.

Dr A Hadden

Women's health, lifestyle health promotion and dermatology.

Dr C Hunter

Interest in all aspects of general practice.

Dr S Raja

Interested in all aspects of general practice, in particular lifestyle medicine and mental health.

Dr J Robertson

Interests in all aspects of general practice.

General surgery

Mr D N Anderson

Colorectal surgery, endoscopy, coloproctology.

Mr G G P Browning

Gallbladder, hernia, thyroid, parathyroid surgery.

Mrs P Burns

One stop varicose vein clinic, minimally invasive treatment of varicose veins, claudication, carotid artery disease, aortic aneurysms.

Mr J Casey

Inguinal hernia repair, umbilical hernia repair, laparoscopic inguinal hernia repair, gallstones, laparoscopic and open cholecystectomy, management of common bile duct stones, minor surgery (skin lesions).

Mr R T A Chalmers

Varicose veins.

Mr A J Clark

Minimally invasive colorectal surgery for cancer, inflammatory bowel and benign disease.

Miss M Collie

Rectal bleeding, incontinence, prolapse, colonoscopy, benign and malignant colorectal disease.

Mr A C de Beaux

Open and laparoscopic hernia surgery including large/complex incisional hernia, gallstone disease and laparoscopic cholecystectomy, gastro-oesophageal reflux disease, endoscopy and hiatal hernia surgery, weight loss or bariatric surgery, investigation and management of abdominal pain, minor surgery including skin lesions and ingrown toenail surgery.

Mr P J Driscoll

Laparoscopic/minimal access surgery; gallstone disease, management of common bile duct stones and laparoscopic cholecystectomy; open and laparoscopic hernia surgery for simple and complex hernias; sports-related groin pain (Sportsman's Groin); investigation and management of abdominal pain; minor surgery for benign skin lesions.

Mr D Kulkarni

Management of breast disease and breast oncoplastic reconstruction.

Mr P Lamb

Gallstone disease and laparoscopic cholecystectomy, laparoscopic hernia surgery, upper gastrointestinal surgery including anti-reflux surgery, endoscopy, weight loss surgery, minor surgery.

Mr B J Mander

Colonoscopy, colorectal cancer, constipation, incontinence, haemorrhoids, hernia repair.

Mr M Potter

All aspects of colorectal surgery including colonoscopy, colorectal cancer, rectal bleeding, fissure, fistula, haemorrhoids (incl HALO) incontinence, prolapse, minimally invasive (keyhole) surgery and hernia repair. Complex pelvic surgery (eg endometriosis).

Mr R Ravindran

Gallbladder surgery, pancreato-biliary surgery, liver surgery, laparoscopic surgery, chronic pancreatitis.

Mr A Tambyraja

Varicose veins, peripheral vascular disease, diseases of the circulation, Raynaud's disease, hand-arm vibration syndrome.

Mr J Terrace

Laparoscopic groin (inguinal, femoral) hernia surgery and abdominal wall (umbilical, incisional) hernia surgery. Laparoscopic gallstone/gallbladder surgery. Adrenal gland surgery. Minor (lumps, bumps, toenail) surgery.

Mr R G Wilson

Laparoscopic surgery for colorectal cancer, inflammatory bowel disease including ileo-anal pouch procedure and diverticular disease. Abdominal hernia surgery. Management of fistula, fissure, haemorrhoids and pilonidal disease. Colonoscopy – diagnostic and therapeutic.

Geriatric medicine

Dr M Corretge

Cognitive problems and dementia, Parkinson's disease, osteoporosis, Functional problems including chronic fatigue and pain, General decline in elderly patients (falls, continence issues, confusion), polypharmacy, cardiovascular risk management.

Gynaecology

Dr P J Dewart

Runs the BSGE Accredited Spire Edinburgh Endometriosis Centre and undertakes complex rectovaginal endometriosis surgical procedures with colorectal and urology colleagues. Endometriosis and pelvic pain, abnormal vaginal bleeding, laparoscopic surgery (endometriosis, laparoscopic hysterectomy, laparoscopic removal of ovaries and cysts), hysteroscopic surgery (endometrial ablation, transcervical resection intrauterine fibroids), treatment of prolapse (pessaries, physiotherapy, vaginal hysterectomy and pelvic floor repair), benign vulval conditions and medico-legal reports.

Dr N Ghaoui Dit Ebef

Pre and postmenopausal ovarian cysts, postmenopausal bleeding, cervical pathology and colposcopy and gynaecological cancer.

Dr T Mahmood

Infertility, recurrent pregnancy loss, polycystic ovarian syndrome, heavy menstrual bleeding, chronic pelvic pain and endometriosis, benign vulval disease, pelvic floor disorders (prolapse and incontinence), hormone replacement treatment, contraception. Medico legal reports.

Dr C Martin

All laparoscopic surgery including management of heavy periods, oncology, ovarian cysts and general gynaecology including post menopausal bleeding. Endometriosis management. Accredited in gynaecology oncology and colposcopy. No prolapse.

Dr S C Nicholson

Urogynaecology. Surgery for prolapse and urinary incontinence. Urodynamics. Menstrual problems and pelvic pain. Laparoscopic surgery including laparoscopic hysterectomy and laparoscopic removal of ovarian cysts. Colposcopy.

Dr S M Rane

Menstrual disorders, menopause and prolapse.

Dr F Rodger

Reproductive medicine, infertility, menstrual problems, vulval problems, menopause and general gynaecology. Does not do any urogynaecology. Does not see patients who are pregnant. Does not perform surgery at Spire Edinburgh Hospitals.

Dr K J Thong

Assisted conception, male and female infertility, reproductive endocrinology, hirsutism, oligomenorrhoea, amenorrhoea, menopause, contraception, miscarriage, egg donation treatment, endometriosis, polycystic ovary syndrome, menstrual problems and hysteroscopy.

H

Haematology

Dr M Drummond

Anaemia and other blood count abnormalities, haematological diagnosis, haemochromatosis, myeloproliferative disease, anticoagulation therapy.

Hand surgery

Mr P Addison

Hand surgery including Dupuytren's disease, ganglions, carpal and cubital tunnel syndrome.

Mr H Bahia

Botox, fillers, eyelid surgery, breast surgery (augmentation, reduction, reconstruction), body contouring (abdominoplasty, liposuction), correction of prominent ears/split earlobes, scar revision, mole removal including skin cancer.

Mrs D Davidson

All aspects of adult hand and wrist surgery. Special interests include Dupuytren's disease, carpal tunnel syndrome, arthritis, tendon problems, reconstruction.

Mr S A Hamilton

Cosmetic surgery of face, breast and body. Special interest in body contouring post weight loss. Botox, chemical peels, and fillers. Skin cancer including reconstruction. Soft tissue hand surgery.

Mr S Harrison

All aspects of adult hand and wrist surgery: Dupuytren's disease, Carpal tunnel syndrome, cubital tunnel syndrome, trigger digits, joint pain, arthritis, tendon problems, lumps and bumps within the hand and wrist.

Mr L Lancerotto

Hand surgery with a special interest in Dupuytren's disease, nerves/nerve compressions – carpal tunnel and cubital tunnel, trigger finger, tendon problems, mucous cysts, arthritis, soft tissue reconstruction.

Mr S Molyneux

Hand, wrist and upper limb surgery including: Carpal tunnel syndrome, joint pain treatment (joint injections), soft tissue problems, nerve release, degenerative hand, wrist and elbow conditions. Hand, wrist, forearm and elbow injuries. Wrist and hand pain. Sports injuries and fractures.

Miss P Rust

All orthopaedic and plastic surgery for hand and wrist conditions. Special interests include carpal tunnel, trigger finger, hand and wrist arthritis, Dupuytren's, wrist pain including TFCC tear and arthroscopic surgery.

I

Immunology

Dr J Darroch

Acute allergy (hay fever/allergic rhinitis, food allergy, insect venom allergy), anaphylaxis, urticaria, angioedema, primary immunodeficiency.

N

Neurology

Dr R J Davenport

Headache, movement disorders (including Parkinson's disease and ataxia), epilepsy, myasthenia gravis/motor neuron disease.

Dr C Neumann

General neurology, headache, epilepsy, multiple sclerosis.

Neurosurgery

Mr A Demetriades

Facial pain/trigeminal neuralgia. Back and neck pain assessment. Minimally invasive, and, motion preservation treatments. All 'simple' and complex spinal conditions (degenerative, trauma, tumour, infection, deformity) of all ages. Sciatica/claudeication/back pain/leg pain/arm pain/neck pain. Disc prolapse/spinal stenosis/spondylolisthesis. Cervical discectomy/disc replacement. Disc arthroplasty. Lumbar microdiscectomy. Spinal fusion. Minimally invasive spine surgery. Revision spine surgery. Radiofrequency for pain. General neurosurgery: Brain tumours, CSF disorders, peripheral nerve, chiari, trauma.

Mr I Fouyas

Complex intracranial surgery (cerebrovascular and skull base), surgical treatment of trigeminal neuralgia, cervical pathologies (disc disease/degeneration), peripheral nerve entrapment, lumbar pathologies (disc disease/spinal stenosis) including spinal tumours.

Mr C Kaliaperumal

Trigeminal neuralgia, chiari malformation, facial pain management, neuro-oncology(paediatric and adult), degenerative spinal conditions, lumbar spine related pain, cervical spine related pain and brachialgia, cervical discectomy and disc replacement, disc prolapse, spinal stenosis, endoscopic neurosurgery, hydrocephalus, craniofacial, brain and spine tumours, carpal tunnel syndrome, paediatric neurosurgery, brain tumours, pituitary tumours, complex paediatric and adult spinal dysraphism.

Mr J Kandasamy

Degenerative spinal conditions, lumbar spine related pain, cervical spine related pain, vertebral disc replacements, minimally invasive techniques, endoscopic neurosurgery, hydrocephalus, spasticity, brain and spine tumours, facial pain, carpal tunnel syndrome, epilepsy surgery, paediatric neurosurgery, brain tumours, spinal dysraphism.

Mr K Kawsar

Complex spinal surgery, degenerative spinal surgery, minimally invasive surgery, trauma, tumour, CSF disorders.

Mr I Liaquat

Neuro-oncology/low grade gliomas, adult spinal disorders, back and neck pain, cervical and lumbar radiculopathy/stenosis, degenerative spinal disease, headaches/facial pain, general neurosurgery and hydrocephalus.

Dr H Shekhar

Adult spinal disease – back pain, neck pain, cervical myelopathy/radiculopathy, lumbar radiculopathy/stenosis, coccydynia, spondylolisthesis, spinal deformity. Cervical discectomy/foraminotomy, lumbar discectomy/laminectomy, spinal fusion, spinal injections (facet/nerve root block/sacroiliac joint/coccyx).

Mr D Sokol

Adult spinal disorders, back/neck pain, sciatica, degenerative spine surgery, vertebral disc replacement, leg and back pain, peripheral nerve surgery, endoscopic neurosurgery, brain and spine tumours, spinal dysraphism, hydrocephalus.

Mr P Statham

Pituitary, skull base tumours, complex spinal surgery and sports injuries.

O

Oncology (clinical)

Dr N MacLeod

Colorectal, prostate and bladder cancers. Treatments include chemotherapy, radiotherapy, immunotherapy, targeted therapy and hormone treatment.

Dr J M Malik

Prostate, bladder and renal cancer, germ cells male cancers, radiotherapy, chemotherapy, immunotherapy.

Prof D McLaren

Radiotherapy and chemotherapy including specialist drug therapies such as immunotherapy and targeted anti cancer drugs for prostate cancer and bladder cancer. Prostate seed brachytherapy including seed boosts in combination with radiotherapy for higher risk disease. Prostate Stereotactic Body Radiotherapy (SBRT) and Intensity Modulated Radiotherapy (IMRT). Clinical trials.

Dr A Sundaramurthy

Genitourinary cancers (prostate, kidney, bladder, penis). Systemic anti-cancer therapy (chemotherapy, immunotherapy, targeted oral therapies, novel anti-hormonal agents) and radiotherapy (EBRT, SABR, brachytherapy).

Dr M Zahra

Gynaecological, colorectal and pancreatic malignancies.

Oncology (medical)

Dr C Michie

Medical oncology.

Dr O Oikonomidou

Medical treatment of breast cancer. Adjuvant chemotherapy for early breast cancer treatment of advanced/metastatic breast cancer. Endocrine therapies. Novel targeted therapies. Immunotherapy.

Ophthalmology

Dr P K Agarwal

Small incision sutureless cataract surgery (phacoemulsification) including premium IOL, toric and multifocals. All types of lasers (SLT and PI) and surgery for glaucoma including minimally invasive. Yag capsulotomy.

Dr A Agrawal

Phacoemulsification cataract surgery and intraocular lens implantation. Cornea and external eye disease.

Dr H G B Bennett

Cataracts, including complex cataract surgery, surgical and medical retinal disease, general ophthalmology patients including lid cysts (NOT paediatrics, plastics, orbital disease, squints, double vision).

Dr P D Cackett

Wet and dry age-related macular degeneration, retinal vein occlusions, diabetic retinopathy, macular diseases.

Dr T K J Chan

Small incision phacoemulsification cataract surgery, refractive lens exchange and presbyopia cataract surgery (premium trifocals and toric lenses), Yag laser capsulotomy. Glaucoma procedures – Yag iridotomy, selective trabeculoplasty. Paediatric ophthalmology, amblyopia (lazy eye) treatment, squint surgery. Neuro-ophthalmology. Eyelid surgery – cysts, lumps removal.

Dr M Das

Diabetic retinopathy, macular diseases and retinal vascular disorder.

Dr A Khan

Ophthalmology and vitreo-retinal surgery, cataract, diabetes.

Dr P Koay

Phacoemulsification cataract surgery and intraocular lens implantation. Cornea and external eye disease. Dry eye disease and ocular surface disorders. Pterygium and conjunctival autograft.

Dr T Malcolm

Cataract surgery, medical and surgical glaucoma, lasers (except retinal, diabetic). General ophthalmology.

Dr M Mehat

Cataract surgery – premium and toric intraocular lenses. Surgical retina – epiretinal membrane, macular holes and retinal detachment. Medical retina – diabetic retinopathy, retinal vascular disorders and age-related macular degeneration.

Mr J Ross

Scotland wide specialist in cataract surgery, performing 2,500 cataract procedures every year.

Dr C Schmoll

Phacoemulsification cataract surgery, adult general ophthalmology, paediatric ophthalmology and paediatric squint surgery.

Dr A Tatham

Cataract and glaucoma specialist. Laser treatments for glaucoma, minimally invasive glaucoma surgery. Toric, multifocal and presbyopia correcting cataract surgery.

Dr N L Tint

Cornea, cataract and refractive surgery.

Dr M Wright

Offers small incision cataract surgery under topical (drops not jags) anaesthetic.

Oral and maxillofacial surgery

Mr T Handley

Wisdom tooth removal, dentoalveolar surgery, salivary gland surgery, TMJ disorders, oral medicine/pathology, Neck lump assessment, head and neck benign and malignant disorders and facial trauma.

Mr E B Larkin

Dentoalveolar surgery, salivary gland surgery, facial trauma, head and neck oncology.

Mr M D Paley

Dentoalveolar surgery, salivary gland surgery, facial trauma, oral pathology/medicine, head and neck lumps/cancers.

Mr A Siddiqui

Oral and maxillofacial surgery, head and neck oncology and reconstructive surgery, facial trauma, salivary gland surgery, dentoalveolar surgery and TMJ.

Orthopaedics

Mr C I Adams

Orthopaedic trained spinal surgeon. Assessment, injection and surgery of the lumbar, sacral and coccyx spine areas.

Mr I Ahmed

Hip and knee replacement surgery including revision surgery. Robotic assisted surgery. Sports injuries of the knee including arthroscopic ligament surgery.

Mr M A Akhtar

Osteoarthritis management, arthroscopic knee surgery, high tibial osteotomy, knee replacement, hip replacement and sports injuries.

Mr A Amin

Knee surgery including knee arthroscopy, knee preservation surgery with high tibial osteotomy, knee replacement including MAKO (robotic-assisted) partial and total knee replacement. All aspects of foot and ankle surgery including ankle arthroscopy, bunion surgery and minimally invasive surgery.

You can refer via SCI Gateway

Mr I D M Brown

Upper limb orthopaedic problems. This includes shoulder pain including rotator cuff pathology, dislocations, scapula muscle dysfunction, AC joint instability and pain, nerve problems. Elbow and hand pathology and sports injuries.

Mr R Clayton

All surgery of the foot and ankle. Bunion correction, arthritis of the foot and ankle, ankle replacement, cartilage problems, Morton's neuroma, sports injuries, ankle instability, achilles tendon and heel pain, minimally invasive (keyhole) foot and ankle surgery.

Mr J Cowie

Hip and knee replacements including revision surgery. Knee arthroscopy, forefoot surgery, sports injuries. Medico-legal.

Mr G Dall

Foot and ankle surgery.

Mrs D Davidson

All aspects of adult hand and wrist surgery. Special interests include Dupuytren's disease, carpal tunnel syndrome, arthritis, tendon problems, reconstruction.

Mr M Gaston

Paediatric orthopaedics (upper and lower limb). Foot and ankle surgery. Arthroscopic knee surgery.

Mr P Gaston

Hip joint surgery, including hip replacement, revision hip replacement, hip arthroscopy, open surgery around the hip including osteotomy, knee joint surgery, including knee replacement and knee arthroscopy.

Mr E Goudie

All forms of joint replacement including total hip replacement, total knee replacement, partial knee replacement, MAKO robotic assisted surgery. Also undertakes arthroscopic knee surgery.

Mr S Harrison

All aspects of adult hand and wrist surgery: Dupuytren's disease, carpal tunnel syndrome, cubital tunnel syndrome, trigger digits, joint pain, arthritis, tendon problems, lumps and bumps within the hand and wrist.

Mr G M Lawson

Hip and knee replacement surgery, arthroscopic knee surgery, knee ligament reconstruction and sports injuries.

Mr G Macpherson

Hip and knee replacement including revision surgery. MAKO robotic surgery for partial knee, total knee and total hip replacement. Knee arthroscopy for meniscal tears.

Mr J McKinley

All foot and ankle pathology including arthritis, sports injuries, ankle replacement, minimally invasive surgery, arthroscopy, bunion correction, Achilles pain and heel pain.

Mr S Middleton

All aspects of foot and ankle surgery, including arthritis, bunions, achilles tendinopathy, plantar fasciitis, Morton's neuroma, keyhole treatment of sports injuries and ligament injuries, flatfoot surgery and acute trauma.

Mr S Molyneux

Hand, wrist and upper limb surgery including: Carpal tunnel syndrome, joint pain treatment (joint injections), soft tissue problems, nerve release, degenerative hand, wrist and elbow conditions. Hand, wrist, forearm and elbow injuries. Wrist and hand pain. Sports injuries and fractures.

Mr M Moran

Primary and revision hip and knee replacement, partial knee replacement, arthroscopy, sports and soft tissue injuries, osteoarthritis, trauma surgery. Robotically assisted hip and knee replacement surgery.

Mr I Murray

Sports injuries of the knee and hip. Knee arthroscopy including anterior cruciate ligament (ACL) reconstruction, meniscus repair, patella stabilisation and cartilage surgery. Hip arthroscopy including femoroacetabular impingement (FAI) surgery.

Mr J T Patton

Hip and knee replacement, revision, knee surgery and arthroscopy, infection, musculoskeletal tumour surgery and robotically assisted joint replacement.

Mr J Reid

Specialist in all aspects of shoulder and elbow surgery including; arthroscopy (keyhole), complex joint replacements, rotator cuff repair, frozen shoulder, dislocations, fractures, shoulder pain, tennis elbow, stiffness, sports injuries.

Mr C M Robinson

Shoulder, elbow and hand problems, including trauma, arthritis and soft-tissue disorders.

Miss P Rust

All orthopaedic and plastic surgery for hand and wrist conditions. Special interests include carpal tunnel, trigger finger, hand and wrist arthritis, Dupuytren's, wrist pain including TFCC tear and arthroscopic surgery.

Ms C E H Scott

Knee and hip replacement surgery including revision, partial knee replacement and robotically assisted joint replacements (MAKO). Knee arthroscopy. Osteoarthritis management.

Mr H Shalaby

Conservative and operative management of all foot and ankle pathologies. The most advanced surgical modalities including total ankle replacement (primary and revision surgery), minimally invasive (keyhole) surgery, bunion surgery, complex deformity corrections, flat foot and high arch reconstructions, reconstruction of ankle cartilage defects, plantar fasciitis surgery, Achilles tendinopathy surgery, and surgical management of foot and ankle sports injuries.

Mr S Sharma

Upper limb surgery (shoulder, elbow, wrist and hand), upper limb sports and soft tissue injuries and shoulder arthroscopy.

Mr P Simpson

Hip and knee replacement surgery including revision. Sports and soft tissue injuries. Knee arthroscopy. Robotic assisted hip and knee replacement surgery.

Mr F A Wade

Hip and knee replacement and revision surgery. Knee arthroscopy and ligament surgery. Robotic partial and total knee replacement.

Orthoptics

Miss G Jackson

Specialist orthoptist with significant experience in both paediatric and adult services. Special interest in neuro ophthalmology.

P

Paediatrics – dermatology

Dr S A Holme

General dermatology, acne, dermatitis, psoriasis, hyperhidrosis, moles, skin cancer and skin cancer surgery.

Dr M J Tidman

Medical dermatology, dermatological oncology, paediatric and adolescent dermatology, general dermatology.

Paediatrics – ENT

Mr D Baring

Tertiary teaching hospital practice working in the Edinburgh ENT group specialising in ear surgery, balance and paediatrics as well as a general ENT practice in rhinology and head and neck work, ear wax removal.

Mr A M D Bennett

Adult and paediatric otolaryngology including nasal blockage, allergic rhinitis, sinusitis, ear infections, glue ear, cholesteatoma, hearing loss, tinnitus and vertigo.

Dr M L Montague

All aspects of ear, nose and throat, airway and head and neck surgery in children and young people from 3 – 18 years. Specialist Paediatric Audiologist input available at clinic for children aged three and over with hearing problems. Microsuction service available for wax removal.

Paediatrics – hand surgery

Miss P Rust

All orthopaedic and plastic surgery for hand and wrist conditions. Special interests include carpal tunnel, trigger finger, hand and wrist arthritis, Dupuytren's, wrist pain including TFCC tear and arthroscopic surgery.

Paediatrics – neurosurgery

Mr C Kaliaperumal

Trigeminal neuralgia, chiari malformation, facial pain management, neuro-oncology (paediatric and adult), degenerative spinal conditions, lumbar spine related pain, cervical spine related pain and brachialgia, cervical discectomy and disc replacement, disc prolapse, spinal stenosis, endoscopic neurosurgery, hydrocephalus, craniofacial, brain and spine tumours, carpal tunnel syndrome, paediatric neurosurgery, brain tumours, pituitary tumours, complex paediatric and adult spinal dysraphism.

Mr J Kandasamy

Degenerative spinal conditions, lumbar spine related pain, cervical spine related pain, vertebral disc replacements, minimally invasive techniques, endoscopic neurosurgery, hydrocephalus, spasticity, brain and spine tumours, facial pain, carpal tunnel syndrome, epilepsy surgery, paediatric neurosurgery, brain tumours, spinal dysraphism.

Paediatrics – ophthalmology

Dr T K J Chan

Small incision phacoemulsification cataract surgery, refractive lens exchange and presbyopia cataract surgery (premium trifocals and toric lenses), Yag laser capsulotomy. Glaucoma procedures – Yag iridotomy, selective trabeculoplasty. Paediatric ophthalmology, amblyopia (lazy eye) treatment, squint surgery. Neuro-ophthalmology. Eyelid surgery – cysts, lumps removal.

Dr C Schmoll

Phacoemulsification cataract surgery, adult general ophthalmology, paediatric ophthalmology and paediatric squint surgery.

Paediatrics – oral and maxillofacial surgery

Mr M D Paley

Dentoalveolar surgery, salivary gland surgery, facial trauma, oral pathology/medicine, head and neck lumps/cancers.

You can refer via SCI Gateway

Paediatrics – orthopaedics

Mr M Gaston

Paediatric orthopaedics (upper and lower limb). Foot and ankle surgery, arthroscopic knee surgery.

Mr P Gaston

(13 and over only). Hip joint surgery, including hip replacement, revision hip replacement, hip arthroscopy, open surgery around the hip including osteotomy, knee joint surgery, including knee replacement and knee arthroscopy.

Mr H Shalaby

Conservative and operative management of all foot and ankle pathologies. The most advanced surgical modalities including total ankle replacement (primary and revision surgery), minimally invasive (keyhole) surgery, bunion surgery, complex deformity corrections, flat foot and high arch reconstructions, reconstruction of ankle cartilage defects, plantar fasciitis surgery, Achilles tendinopathy surgery, and surgical management of foot and ankle sports injuries.

Paediatric surgery

Mrs M C Clark

Paediatric surgery, urology and colorectal.

Mr P Hammond

General paediatric surgery and urology. Infant feeding-tongue tie division, circumcision, hernias, undescended testicles and ingrown toe nails.

Paediatrics – plastic surgery

Mr P Addison

Birthmarks, trauma, burns, prominent ears, skin lesions and cysts.

Ms E Majdak-Paredes

Cosmetic surgery of the breast, body and face. Labiaplasty. Non-surgical anti-wrinkle treatments. Reconstructive surgery to the breast, removal/exchange of implants. Skin cancer surgery and reconstruction, cosmetic mole removal.

Mr K Stewart

Expertise includes paediatric plastic surgery including ear deformations, prominent ears, skin lesions and birthmarks.

Pain management

Mr A Demetriades

Facial pain/trigeminal neuralgia: 360 assessment with options in pharmacotherapy, minimally invasive treatment, microvascular decompression. Back and neck pain assessment: exploration of non surgical options. For sciatica, brachialgia or radicular pain: non-surgical diagnostic and therapeutic injections, nerve root block, transforaminal epidural, dorsal root ganglion block. For axial/mechanical pain: as per NICE guidelines, diagnostic medial branch facet blocks, radiofrequency rhizolysis, denervation. Minimally invasive and motion preservation treatments. All 'simple' and complex spinal conditions (degenerative, trauma, tumour, infection, deformity) of all ages. Spinal fusion. Revision spine surgery.

Dr K Sachane

Chronic back pain, neck and arm pain, headaches/migraines, sciatica, neuropathic pain, coccydynia, CRPS, fibromyalgia, post surgical pain, knee pain, shoulder pain, pain in elderly, pain medicine, peripheral nerve pain, injection therapies USG and X-ray guided.

Dr A V G Stewart

Pain medicine.

Plastic surgery

Mr P Addison

Skin cancer, skin lesions, reconstructive plastic surgery, facial paralysis surgery, hand surgery (including Dupuytren's disease, ganglions, carpal and cubital tunnel syndrome).

Mr W Anderson

Plastic and aesthetic surgery of the face and body, laser rejuvenation.

Mr H Bahia

Botox, fillers, eyelid surgery, breast surgery (augmentation, reduction, reconstruction), body contouring (abdominoplasty, liposuction), correction of prominent ears/split earlobes, scar revision, mole removal including skin cancer.

Mr M Butterworth

Aesthetic breast surgery, reconstructive breast surgery, skin malignancy, facial aesthetic surgery, body contouring surgery including abdominoplasty and liposuction and rhinoplasty surgery.

Mrs D Davidson

All aspects of adult hand and wrist surgery. Special interests include Dupuytren's disease, carpal tunnel syndrome, arthritis, tendon problems, reconstruction.

Mr S A Hamilton

Cosmetic surgery of face, breast and body, special interest in body contouring post weight loss, botox, chemical peels, and fillers, skin cancer including reconstruction, soft tissue hand surgery.

Mr L Lancerotto

Plastic surgery, reconstructive skin cancers, soft tissue reconstruction, ear surgery.

Ms E Majdak-Paredes

Cosmetic surgery of the breast, body and face. Labiaplasty. Non-surgical anti-wrinkle treatments. Reconstructive surgery to the breast, removal/exchange of implants. Skin cancer surgery and reconstruction, cosmetic mole removal.

Mr A Quaba

Cosmetic surgery of the face, breasts, trunk, and liposuction. Non-surgical treatments (Botox and filler).

Mr O Quaba

Cosmetic breast surgery (augmentation, reduction, gynaecomastia), eyelid surgery, facelift, body contouring (abdominoplasty, liposuction) and labiaplasty.

Mr C Raine

Cosmetic surgery – facial aesthetic surgery, body contouring, cosmetic breast surgery.

Mr K Stewart

Particular interest in aesthetic surgery for face, ears, body contouring, breast.

Psychology

Dr L Harrow

Psychology of weight loss and bariatric surgery, disordered eating, body image concerns, adult mental health.

Mrs C Sutherland

Plastic surgery, weight loss surgery, adult mental health.

Dr A Tulloh

Individual psychological therapy for adults with common mental health problems including anxiety disorders, depression, childhood trauma, relationship problems, obesity and complicated bereavement. Therapies offered include CBT, CAT, EMDR and IPT.

Dr K Watt

Individual psychological therapy for adults with a range of mental health problems including anxiety disorders, depression, low self-esteem, PTSD, interpersonal problems and childhood trauma. Therapies offered include CBT, CAT and EMDR.

R

Radiology

Dr G Babu

Breast radiology.

Dr A Baird

Chest imaging, gastrointestinal imaging, genitourinary imaging, oncology imaging, ct, mri, ultrasound, fluoroscopy and x-ray.

Dr T N Blankenstein

Musculoskeletal radiology including image guided interventions.

Dr D Brown

Uroradiology, GI radiology, oncology imaging.

Dr J P Brush

Uroradiology, GI radiology, prostate cancer, renal cancer, colon cancer, oncology imaging.

Dr J Downer

Neuroimaging, endovascular neurointervention, craniofacial vascular malformations, spinal nerve root injections.

Dr J Du Plessis

Neuroradiology.

Dr R Gibson

Neuroradiology.

Dr J Foley

Musculoskeletal radiology.

Dr M Jones

General ultrasound, plain film reporting, CT and MRI scanning (including cardiac and chest imaging).

Dr S Kealey

Neuroradiology. MRI and CT of brain, spine, head and neck, and ENT. CT guided lumbar root injection.

Dr J Keanie

Uroradiology – all aspects including stone disease and cancer, interventional radiology, general surgical imaging, oncological imaging.

Dr J Kelly

Breast radiology.

Dr P M Keston

Neurovascular interventional procedures, spinal intervention including vertebroplasty.

Dr P Law

Breast radiology.

Dr G Lip

Breast radiology.

Dr P MacLean

Oncology, abdominal imaging and intervention.

Dr S McKie

Musculoskeletal imaging and sports radiology.

Dr K C Muir

Musculoskeletal radiology.

Dr D K B Patel

Ultrasound, CT, MRI, radionuclide imaging including PET/CT.

Dr F Perks

Musculoskeletal imaging including image guided therapeutic procedures.

Dr G Stenhouse

Musculoskeletal.

Dr D M Summers

Brain and spinal imaging, ENT imaging.

You can refer via SCI Gateway

Dr N Thomas

Musculoskeletal radiology.

Dr J Walker

Transabdominal and transvaginal pelvic ultrasound, dating pregnancy ultrasound, hysterosalpinography.

Dr B M Ward

Breast radiology, guided biopsy, pre and post surgical imaging, head and neck, thyroid.

Dr G Weir

Interventional, radiology, MRA, CTA, Duplex Selective Internal Radiation Therapy (SIRT), radioembolisation, TACE.

Respiratory medicine

Dr E J Cameron

Acute allergy (hay fever, food allergy) angio-oedema, immune function. Breathlessness, chronic cough, difficult asthma, pulmonary fibrosis, COPD, emphysema, bronchiectasis, lung cancer, sleep apnoea screening. Unexplained weight loss. Occupational respiratory assessments.

Prof A T Hill

Airways disease and respiratory infection in particular COPD, bronchiectasis, pneumonia and tuberculosis.

Dr D Noble

Breathlessness, chronic cough, asthma, COPD, bronchiectasis, pulmonary fibrosis, lung cancer, respiratory infections.

Rheumatology

Dr S Boyle

Diagnosis and management of inflammatory arthritis/rheumatoid arthritis, psoriatic arthritis, ankylosing spondylitis, polymyalgia rheumatica, gout. Connective tissue disease including SLE and Sjogren's syndrome. Osteoarthritis and soft tissue rheumatism.

Dr H Harris

Diagnosis and treatment of early arthritis. Use of ultrasound in the rheumatology clinic. Psoriatic arthritis and rheumatoid arthritis. Fibromyalgia. Lupus, Sjogren's syndrome and other autoimmune conditions. Osteoporosis.

Dr C M Lambert

Inflammatory joint/connective tissue disease including RA, ankylosing spondylitis, psoriatic arthritis, SLE. Soft tissue and degenerative rheumatic diseases.

Dr N McKay

Assess and treat all aspects of rheumatology/musculoskeletal pain. Ultrasound imaging expertise to assess joint pain. Early RA and inflammatory arthritis, gout, rheumatoid, ankylosing spondylitis, psoriatic arthritis, osteoarthritis, Sjogren's, SLE.

Dr E R McRorie

The diagnosis and management of inflammatory arthritis including early inflammatory disease, rheumatoid arthritis, psoriatic arthritis, ankylosing spondylitis, connective tissue diseases and gout. Osteoarthritis and soft-tissue rheumatism.

S

Spinal surgery

Mr C I Adams

Orthopaedic trained spinal surgeon. Assessment, injection and surgery of the lumbar, sacral and coccyx spine areas.

Mr A Demetriades

Facial pain/Trigeminal Neuralgia. Back and neck pain assessment. Minimally invasive, and, motion preservation treatments. All 'simple' and complex spinal conditions (degenerative, trauma, tumour, infection, deformity) of all ages. Sciatica/claudeication/backpain/leg pain/arm pain/neck pain. Disc prolapse/spinal stenosis/spondylolisthesis. Cervical discectomy/disc replacement. Disc arthroplasty. Lumbar microdiscectomy. Spinal fusion. Minimally invasive spine surgery. Revision spine surgery. Radiofrequency for pain. General neurosurgery: Brain tumours, CSF disorders, peripheral nerve, chiari, trauma.

Mr I Fouyas

Complex intracranial surgery (cerebrovascular and skull base), surgical treatment of trigeminal neuralgia, cervical pathologies (disc disease/degeneration), peripheral nerve entrapment, lumbar pathologies (disc disease/spinal stenosis) including spinal tumours.

Mr C Kaliaperumal

Trigeminal neuralgia, chiari malformation, facial pain management, neuro-oncology (paediatric and adult), degenerative spinal conditions, lumbar spine related pain, cervical spine related pain and brachialgia, cervical discectomy and disc replacement, disc prolapse, spinal stenosis, endoscopic neurosurgery, hydrocephalus, craniofacial, brain and spine tumours, carpal tunnel syndrome, paediatric neurosurgery, brain tumours, pituitary tumours, complex paediatric and adult spinal dysraphism.

Mr J Kandasamy

Degenerative spinal conditions, lumbar spine related pain, cervical spine related pain, vertebral disc replacements, minimally invasive techniques, endoscopic neurosurgery, hydrocephalus, spasticity, brain and spine tumours, facial pain, carpal tunnel syndrome, epilepsy surgery, paediatric neurosurgery, brain tumours, spinal dysraphism.

Mr I Liaquat

Neuro-oncology/low grade gliomas, adult spinal disorders, back and neck pain, cervical and lumbar radiculopathy/stenosis, degenerative spinal diseases, headaches/facial pain, general neurosurgery and hydrocephalus.

Dr H Shekhar

Adult spinal disease – back pain, neck pain, cervical myelopathy/radiculopathy, lumbar radiculopathy/stenosis, coccydynia, spondylolisthesis, spinal deformity. Cervical discectomy/foraminotomy, lumbar discectomy/laminectomy, spinal fusion, spinal injections (facet/nerve root block/sacroiliac joint/coccyx).

Mr D Sokol

Adult spinal disorders, back/neck pain, sciatica, degenerative spine surgery, vertebral disc replacement, leg and back pain, peripheral nerve surgery, endoscopic neurosurgery, brain and spine tumours, spinal dysraphism, hydrocephalus.

Mr P Statham

Pituitary, skull base tumours, complex spinal surgery and sports injuries.

Stroke medicine

Dr R Parakramawansa

Treatment and prevention of strokes and ministrokes (TIAs), investigation and management of 'funny turns' including syncope, treatment of hypertension and prevention of cardiovascular diseases.

T

Thyroid and parathyroid surgery

Mr R Adamson

Edinburgh Teaching Hospital Consultant with special interest in voice, airway, swallowing, Thyroid disorders including cancers and neck/salivary lumps. The only subspecialist laryngologist working in the private sector in Edinburgh.

Mr G G P Browning

Gallbladder, hernia, thyroid, parathyroid surgery.

Mr A J Hay

General ENT, Swallowing and voice, salivary gland, thyroid, head and neck cancers, neck lumps, ears, nose, sinus.

Mr I J Nixon

General ENT, head and neck, throat, thyroid surgery and ear wax removal.

U

Upper GI and gallstones

Mr G G P Browning

Gallbladder, hernia, thyroid, parathyroid surgery.

Mr J Casey

Inguinal hernia repair, umbilical hernia repair, laparoscopic inguinal hernia repair, gallstones, laparoscopic and open cholecystectomy, management of common bile duct stones, minor surgery (skin lesions).

Mr A C de Beaux

Open and laparoscopic hernia surgery including large/complex incisional hernia, gallstone disease and laparoscopic cholecystectomy, gastro-oesophageal reflux disease, endoscopy and hiatal hernia surgery, weight loss or bariatric surgery, investigation and management of abdominal pain, minor surgery including skin lesions and ingrown toe nail surgery.

Mr P J Driscoll

Laparoscopic/minimal access surgery; gallstone disease, management of common bile duct stones and laparoscopic cholecystectomy; open and laparoscopic hernia surgery for simple and complex hernias; sports-related groin pain (Sportsman's Groin); investigation and management of abdominal pain; minor surgery for benign skin lesions.

Mr P Lamb

Gallstone disease and laparoscopic cholecystectomy, laparoscopic hernia surgery, upper gastrointestinal surgery including anti-reflux surgery, endoscopy, weight loss surgery, minor surgery.

Mr R Ravindran

Gallbladder surgery, pancreato-biliary surgery, liver surgery, laparoscopic surgery, chronic pancreatitis.

Urology

Mr A Alhasso

Reconstructive and functional urology: urethral stricture disease, male urinary incontinence (artificial urinary sphincter and male sling surgery), female urinary incontinence (urethral slings, tapes, bulking agent injections and colposuspension). Bladder dysfunction (idiopathic and neuropathic overactive bladder dysfunction) – Botulinum toxin injection and neurimodulation (SNS and PTNS). Urinary diversion surgery, functional bladder studies – Video-Urodynamics (Videocystometry). General urology: peno-scrotal surgery (circumcision, hydrocele repair, epididymal cyst excision, prosthetic testicular implantation). Prostatic disease (prostate surgery and GreenLight laser prostatectomy).

Mr F Al Jaafari

Urinary stone disease (flexible ureteroscopy, laser and percutaneous stone surgery), BPH including Green Light Laser Prostatectomy and Urolift, bladder cancer-haematuria, prostate cancer diagnostics, general urology (circumcision, hydrocele, epididymal cyst, testicular implants etc). Also offers minimally invasive treatment for enlarged prostate (Rezum – steam treatment).

Mr D Good

Prostate disease, (BPH, prostatitis, prostate cancer, robotic surgery), including transperineal prostate biopsies, Green Light Laser prostatectomy and Rezum. Prostate cancer diagnostics, haematuria workup. General urology (UTIs, circumcision, hydrocele, epididymal cyst surgery).

Miss P V Granitsiotis

Female urology, stress urinary incontinence, overactive bladder syndrome/incontinence, recurrent urinary tract infections, female urinary retention, bladder pain/interstitial cystitis, bladder problems in neuropathic patient (spinal problems, MS etc), urodynamics. General urology including haematuria and benign prostate problems.

Mr K Janjua

Female urology – stress urinary incontinence, overactive bladder including bladder botulinum toxin injections. Recurrent urinary tract infections. Haematuria. Benign prostatic disease, including green-light laser prostatectomy. Daycase surgery including circumcision, hydrocele repair, epididymal cyst excision.

Prof P Mariappan

Bladder cancer, prostate cancer, haematuria, pelvic surgery, prostate and bladder problems, urinary infections, daycase surgery.

Prof S A McNeill

Prostate disease (BPH, prostatitis, prostate cancer) including green light laser ablation of the prostate, laparoscopic surgery for kidney and prostate cancer.

You can refer via SCI Gateway

Mr I D C Mitchell

Prostate disease, bladder cancer, inguino-scrotal surgery.

Mr S Phipps

Urinary stone disease (flexible ureteroscopy, laser and percutaneous stone surgery, lithotripsy), BPH and GreenLight laser prostatectomy, laparoscopic surgery for kidney cancer and PUJ obstruction.

Mr C J Shukla

Andrology, male genito-urethral reconstruction, general urology. Testis and penile disease, male infertility, andrology, reversal vasectomy and testosterone deficiency.

Mr L H Stewart

General urology which includes kidney, ureter, bladder, prostate, urethra, penis, testicles, foreskin and scrotum.

Mrs R J S Webber

Kidney and bladder stone disease, haematuria, urinary tract infection, hydrocoele, epididymal cyst, circumcision, benign prostate disease, bladder cancer, testicular cancer.

V

Vascular

Mrs P Burns

One stop varicose vein clinic, minimally invasive treatment of varicose veins, claudication, carotid artery disease, aortic aneurysms.

Mr R T A Chalmers

Varicose veins.

Mr A Tambyraja

Varicose veins, peripheral vascular disease, diseases of the circulation, Raynaud's disease, hand-arm vibration syndrome.

W

Weight loss surgery

Mr A C de Beaux

Weight loss/bariatric surgery, including the assessment, surgery and post-surgical care of laparoscopic gastric bands, Roux-en-Y and mini gastric bypass, sleeve gastrectomy, and endoscopic gastric balloon.

Mr P Lamb

Weight loss/bariatric surgery, including the assessment, surgery and post-surgical care of laparoscopic gastric bands, Roux-en-Y and mini gastric bypass, sleeve gastrectomy, and endoscopic gastric balloon.

Mr B Tulloh

Weight loss (obesity) surgery.
